

THE ECONOMICS OF CHILD ABUSE

2019 Study of Solano County

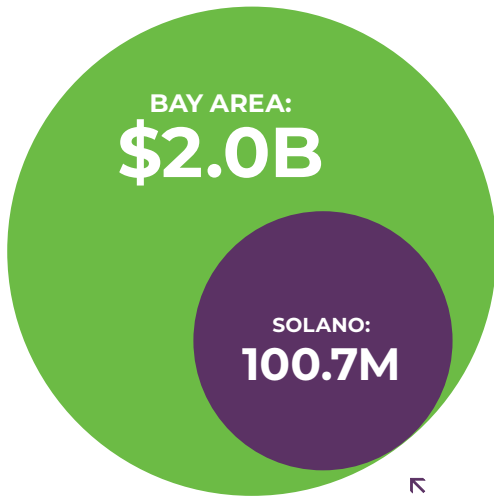

Child abuse is a persistent problem within Solano County and the greater Bay Area. Although it is a hidden social ill, its impact is significant. Child abuse impacts not just the child, but the family, the community, and society at large. While the impact of abuse not only morally devastates our community, it also significantly hurts our economy. In fact, the physical, mental, and emotional effects of abuse persist long after child abuse occurs, and result in ongoing costs to every sector of our community.

Child abuse is a core underlying factor to many of the ongoing struggles of this community, such as high rates of school dropout, homelessness, incarceration, and chronic health issues. This report shines a light on this largely ignored issue and the negative impact it has on all of us.

THE FINANCIAL IMPACT OF CHILD ABUSE

The cumulative financial impact to the Solano community for the 425 verified child victims in 2018 is \$100.7M. Though these costs are accrued over the course of the victim's life, the community will continue to incur the same cost each year until we are able to reduce and ultimately end child abuse.

Financial impact for verified cases last year:

↳ That same amount could send 10.4K kids to preschool

Since child abuse is vastly underreported, in reality, the cost to the Solano community is likely far higher. Last year, there were:

425
VERIFIED
CHILD VICTIMS
OF ABUSE

5,761
REPORTED
CHILD VICTIMS
OF ABUSE

↓
That's one child every 1.5 hours

11,619
ESTIMATED
CHILD VICTIMS
OF ABUSE

→ The resulting financial impact is as high as \$2.75B

COST TO THE SOLANO COMMUNITY

A Breakdown of \$100.7M

HEALTHCARE

Victims may require hospital care, mental health services, and other medical services during childhood, and have a higher incidence of physical and mental health issues throughout adulthood.

CRIMINAL JUSTICE

Abused children are 59 percent more likely to be arrested as juveniles, and 28 percent more likely to have an adult criminal record.

CHILD WELFARE

Victims may require intervention services, foster care, and counseling services.

EDUCATION

Abused children are 77 percent more likely to require special education.

LIFETIME PRODUCTIVITY

Victims are more likely to be unemployed and rely on public assistance which lead to diminished earning potential.

CHILDREN'S NETWORK OF SOLANO COUNTY

The Children's Network works to protect children from physical, emotional, and sexual abuse, and neglect. It is dedicated to creating a community where all children are safe and can thrive.

PROTECTIVE FACTORS

Communities can support vulnerable children and families by fostering the five protective factors. By helping families to enhance their protective factors, they will be better equipped to combat risk factors (history of abuse, isolation, substance abuse, and others) and prevent incidences of child abuse. Research shows that healthy and safe families share these five commonalities:

SOCIAL & EMOTIONAL COMPETENCE OF CHILDREN

Family and child interactions that help children develop the ability to communicate clearly, recognize and regulate their emotions, and establish and maintain relationships

KNOWLEDGE OF CHILD DEVELOPMENT

Understanding parenting strategies that support physical, cognitive, language, social, and emotional development

PARENTAL RESILIENCE

Managing stress and functioning well when faced with challenges, adversity, and trauma

SOCIAL CONNECTIONS

Positive relationships that provide emotional, informational, and spiritual support

CONCRETE SUPPORT

Access to concrete support and services that address a family's needs and help minimize stress caused by life's challenges

#CostOfAbuse
